Hospice of San Juan, a Federal 501(c) non-profit was founded in 1984 by a group of dedicated island residents and is one of the few remaining all volunteer hospice organizations in the country. Our mission is to improve the quality of life by providing guidance and warm, loving supportive help to a dying person and their family and to keep intact the dignity, integrity and personal choices of the individual. We offer five main programs areas: direct patient care & caregiver respite; grief support; community and volunteer education; music and memory matching and durable medical equipment lending
